Review of Primary Care Access Plan

This is to certify that the Montana Primary Care Access Plan, developed as part of the requirements of the Bureau of Primary Health Care for the Montana Primary Care Cooperative Agreement, has been reviewed by the Montana Department of Health and Environmental Sciences. The Montana Primary Care Association participated in the process of writing and reviewing the plan.

Bob Robinson
Director
Montana Department of Health & Environmental Sciences

Preface

The development and submission of a **Primary Care Access Plan** is one of the required activities of the **Montana Primary Care Cooperative Agreement**. The Montana Primary Care Cooperative Agreement is funded through a grant provided by the Bureau of Primary Health Care, Health Resources and Services Administration, Public Health Service, Department of Health and Human Services.

The Bureau of Primary Health Care works with a national network of Primary Care Cooperative Agreements that are located in each of the fifty states. The overall intent of the Bureau of Primary Health Care is to improve access to quality health care through a process of state planning.

The required elements of the Primary Care Access Plans and County-Based Health Care Resource Information are presented in this document. Other information relevant to the health care delivery systems in Montana will be published in separate documents. The latter volumes will include an analysis of data collected through a survey of **County Commissioners**, **County Health Departments**, and **Hospital Administrators**.

The Montana Primary Care Access Plan was accomplished with the cooperative efforts of the following agencies and organizations:

- Montana Department of Health and Environmental Sciences
- Montana Primary Care Association
- Montana Area Health Education Center at Montana State University

CHAPTER VII. STATEWIDE DATA SUMMARY 487

REFERENCES TO INFORMATION AND DATA SOURCES 495

Chapter I. Introduction

A. Purpose

In January of 1993, the Montana Department of Health and Environmental Sciences published the first iteration of County-Based Health Planning. That document was the result of a process initiated by the Bureau of Primary Health Care, Health Resources and Services Administration, as one of the activities of the Montana Primary Care Cooperative Agreement. The long-range plan of the Bureau of Primary Health Care is to improve access to primary health care for underserved populations.

The 1995 Montana Primary Care Access Plan is a continuation of the process of planning that has been initiated in every state through the Primary Care Cooperative Agreements. The purpose of the current plan is to accomplish the following:

- **Identify Areas in Need of Primary Care Resources**
- **Determine the Magnitude of Need in Specific Counties, Areas, and/or Populations**
- **Prioritize the Need by County and/or Health Service Area**
- **Recommend Appropriate Interventions**

Information provided in the Primary Care Access Plan provides the Bureau of Primary Health Care with estimates of resources that may be needed for community development, site development, and technical assistance. In addition, the Primary Care Access Plans may serve as one of the measures for allocation of federal resources to states through Departments of Health, Community Health Centers, Migrant Health Centers, and Primary Care Associations.

The Montana Department of Health and Environmental Sciences utilizes information contained in the Primary Care Access Plan as one of the assessments of access to health care throughout the state.

B. Format for the Primary Care Access Plan

Development of the Primary Care Access Plan is based on the concept that primary health care should be available within each county. This suggests that county governments should assume some responsibility for assuring that citizens have appropriate access to primary health care services. Access to primary care physicians is the "centerpiece" for data analysis in each county. Therefore, required elements of the plan focus on inventories of resources

within counties and recommendations for interventions by federal and/or state programs.

1. Resource Analysis

   a. Unit of Analysis

      The Montana Primary Care Access Plan utilizes the **county** as the basic unit of analysis. The reason for choosing the county as the unit of analysis is that counties are, in most instances, a rational service area. Primary health care delivery systems in Montana are, in general, centered around the location of the following within a county:

      - **Primary Care Hospital**
      - **Medical Assistance Facility**
      - **Rural Health Clinic**
      - **County Health Department**
      - **Private Medical Clinic**

   b. Population Analyzed

      The Bureau of Primary Health Care provided the option of analyzing the entire population of a county, or the population under 200% of poverty. In most counties, the Montana Primary Care Access Plan utilizes the entire county population. The only exceptions were in counties with exceptionally high poverty and in counties where a significant percentage of the population is provided access to health care through the Indian Health Service.

   c. Resources Included in Analysis

      Health care providers included in the analysis were limited to primary care physicians. These are defined by the Bureau of Primary Health Care as including the following physician specialties:

      - **Family Practice**
      - **General Practice**
      - **Internal Medicine**
      - **Pediatrics**
      - **Obstetrics/Gynecology**

In Montana, the number of primary care physicians employed by and providing patient care through federally-funded and state-funded facilities is limited. These are noted in the detailed resource analysis for each county (Chapter VI). Also, the names of private physicians delivering health care as National Health Service Corps Providers are shown in Chapter VI.

The Primary Care Office and the Primary Care Association have completed an analysis of data provided by the Medicaid Bureau to determine the number providing services and the volume of services to patients eligible for Medicaid. These data were not included in the calculations on access to primary health care services within counties. The interpretation was that inclusion of the information could result in erroneous and inappropriate conclusions about access to Medicaid services through primary care physicians practicing in rural and frontier counties.

The Bureau of Primary Health Care recognizes, as does the Montana Department of Health and Environmental Sciences, that in addition to physicians there are many nurse practitioners and physician assistants who are providing primary health care. For example, physician assistants and/or nurse practitioners are providing primary care in some of the nine counties where there are no physicians. In most instances, the physician assistants and/or nurse practitioners provide services through Medical Assistance Facilities and Rural Health Clinics.

d. Unmet Need.

The Bureau of Primary Health Care required that the unmet need in each county/rational service area be calculated by using physician to population ratios. While this information is useful in estimating the volume of unmet need, it does not recognize the fact that there are counties in Montana with no physicians. In each of the counties with no physicians, regardless of total population, it must be recognized that there is unmet need. There is a direct relationship between the lack of a full-service primary care hospital and the presence of physicians in rational service areas. Therefore, the unmet need in each county was calculated by two methods:

- **Population in County Exceeding the Physician to Population Ratio of 1:1,500**

- **Percentage of County Population Lacking Access to Primary Care Physicians through Physicians Practicing in the County**

2. **Prioritization of Counties**

Two rankings for each of the 56 counties are provided. Both of these rankings are based on the availability of primary care physicians who are practicing within the county. As stated above, counties having no physicians and those with low populations are recognized as having unmet needs.

The Bureau of Primary Health Care suggested that only those rational service areas with unmet need greater than **1,500** be ranked. Counties with unmet need exceeding **1,500** are "highlighted". In addition, the Montana Primary Care Access Plan ranks all counties as a means of providing a more complete analysis of the state. The Montana Department of Health and Environmental Sciences believes that the low population density (frontier status) of 46 of the 56 counties in Montana should be recognized as a barrier to providing full access to primary care services.

3. **Resource Recommendations**

Resource recommendations are provided for each county in Chapter IV and Chapter VI. The statewide summary of recommendations is given in Chapter V.

The resource recommendations are largely **limited** to those targeted by the Bureau of Primary Health Care. That is, the provision of services that could be available through programs funded by the Bureau of Primary Health Care. A listing of the types of resource recommendations is as follows:

- **Designation as Federal Medically Underserved Areas (MUAs)**
- **Designation as Federal Health Professional Shortage Areas (HPSAs)**
- **Provision of Technical Assistance for Community Development**
- **Provision of Technical Assistance for Site Development**
- **Development of New or Expanded Community Health Center Programs**
- **Development of New or Expanded Homeless Programs**
- **Development of New or Expanded Migrant Health Center Programs**
- **Placement of NHSC Scholars in Communities**
- **Designation of Communities as Federal Loan Repayment Sites**
- **Utilization of Communities as Training Sites for Health Professions Students**

C. Limitations of Methodology

The guidelines provided by the Bureau of Primary Health Care for development of Primary Care Access Plans tend to limit data analysis to the existence of primary care physicians within rational service areas. This excludes many considerations about the total health care delivery system that have major impacts on the capacity of primary care physicians to provide quality health care to unserved and underserved populations.

The major limitation of the methodology utilized in developing the Primary Care Access Plan is that utilization of "formulas" for calculating unmet need may not give a true picture of access to primary care services within rational service areas. There are many variables that influence how health care is delivered in communities and counties. The "picture" at any given time in frontier counties can be influenced by the loss, or gain, of one primary care provider. Utilization of other indicators such as high poverty levels, infant mortality rate, low birth weight rate, and fertility rate may have little significance in frontier counties.

In this document, counties with the highest unmet need based on physician to population ratios and percentage of population without access to primary care services may have **no, or a limited number of, recommendations for interventions.** The reason for this is that a review of the total health care delivery system suggests that available interventions are inappropriate, or not needed, in the county/rational service area. For example, although Ravalli County is number one in the priority ranking based on physician to population ratios, it is not designated as a Health Professional Shortage Area, there have been no requests from the communities in Ravalli County for designation, the communities are not actively recruiting physicians, and Medicaid eligible populations have full access to care through physicians practicing in the county.

Intervention programs that are of most importance to rural and frontier counties/communities in Montana include:

- **HPSA Designations**
- **Designation as Federal Loan Repayment Sites**
- **Designation and Reimbursement as 95-210 Rural Health Clinics**
- **Assistance with Health Professions Recruitment and Retention**
- **Technical Assistance for Maintenance of Rural Hospitals and Other Components of the Local Health Care Delivery System**
- **Access to Public Health Services at the Local Level**

Chapter II. Primary Health Care Resources

The purpose of this chapter is to provide an inventory of the primary health care resources in Montana counties that are relevant to the capacity of physicians to provide health care in rational service areas and/or to specific populations.

A. Primary Care Physicians

The number of primary care physicians in Montana is estimated to be **587**. This represents approximately forty-two percent of the total physicians practicing within the state. Three-hundred and seventy-two (63.4 percent) are practicing in the seven largest counties having the largest populations. This means that in the remaining 49 counties there are only 215 primary care physicians; less than 4.5 physicians per county.

An inventory of primary care physicians in each county, by specialty (family practice, internal medicine, pediatrics and obstetrics/gynecology), is provided in the following table. The data source for primary care physicians is the 1994-95 Montana Medical Association Directory of Physicians.

Primary Care Physicians

County	Family Practice	General Practice	Gynecology	Internal Medicine	OBGYN	Pediatrics	Total PC Physicians
Beaverhead	4	0	0	3	0	0	7

B. Primary Care Hospitals

Montana has fifty primary care hospitals these are located in forty-one different counties. Seven counties have two primary care hospitals and one county (Roosevelt) has three rural hospitals. Only three communities (Billings, Great Falls, Missoula) have two primary care facilities. There are fifteen counties (twenty-seven percent of total counties) that have no full service hospitals. There are no primary care physicians located in nine of these counties.

The inventory of primary care hospitals, by county, is presented in the following table. Indian Health Service hospitals, Veterans Administration hospitals, specialty state hospitals, and Medical Assistance Facilities are not included in this listing. The only hospitals that have closed during the past five years have converted to Medical Assistance Facilities.

Primary Care Hospitals	
County	Number of Hospitals
Beaverhead	1

TOTALS	50

C. Medical Assistance Facilities

During the past five years, Montana has developed a special class of licensed primary care facilities called Medical Assistance Facilities (MAFs). These facilities are "down-sized" hospitals that are approved for Medicare and Medicaid cost-based reimbursement. MAFs have allowed primary care services to continue in communities and counties that have had financial problems remaining as full service hospitals and in recruiting/retaining physicians.

The existing seven MAFs are listed in the following table. One of the MAFs (Big Timber/Sweet Grass County) is not fully operational. Two other communities (Choteau/Teton County and Roundup/Musselshell County) have submitted Certificate of Need (CON) applications to convert to MAFs.

Medical Assistance Facilities		
County	Community	Number of MAFs
Carter	Ekalaka	1
Garfield	Jordan	1
Granite	Philipsburg	1
McCone	Circle	1
Prairie	Terry	1
Roosevelt	Culbertson	1
Sweet Grass	Big Timber	1
TOTAL		7

D. Community Health Centers

Federally-funded Community Health Centers (CHCs) are located in four of the largest counties in Montana. These four CHCs provide primary health care to indigent, low-income, and other underserved populations. The existing CHCs are indicated by county and city in the following table.

Community Health Centers

County	Community	Number of CHCs
Lewis & Clark	Helena	1
Missoula	Missoula	1
Silver Bow	Butte	1
Yellowstone	Billings	1
TOTAL		**4**

In 1994 Cascade County (Great Falls) submitted an application for a new CHC.

E. Migrant Health Centers

The only Migrant Health Center (MHC) in Montana is administratively located in Yellowstone County (Billings). However, the MHC does provide primary health care services to migrant and seasonal farmworkers throughout Montana.

F. Federally Qualified Health Centers

The Federally Qualified Health Centers (FQHCs) are limited to the CHCs, MHC, and the Urban Indian Clinics. The counties and communities where these facilities are located appear in the following table.

Federally Qualified Health Centers		
County	Facility	Community
Cascade	Native American Center, Inc. (Urban Indian Clinic)	Great Falls
Lewis & Clark	Helena Community Health Center (CHC)	Helena
Lewis & Clark	Helena Indian Alliance/ Leo Pocha Clinic (Urban Indian Clinic)	Helena
Missoula	Partnership Health Center (CHC)	Missoula
Missoula	Missoula Indian Center* (Urban Indian Clinic)	Missoula
Silver Bow	Butte-Silver Bow Community Health Center (CHC)	Butte
Silver Bow	North American Indian Alliance (Urban Indian Clinic)	Butte
Yellowstone	Deering Community Health Center (CHC)	Billings
Yellowstone	Montana Migrant & Seasonal Farmworkers Council (MHC)	Billings
Yellowstone	Yellowstone County Health Care for the Homeless Program	Billings
Yellowstone	Indian Health Board of Billings (Urban Indian Clinic)	Billings

* Eligible for FQHC status. Facility has not applied to become FQHC.

There is one other facility that should qualify as a FQHC. This is the Salish-Kootenai Tribal Health Department in St. Ignatius. The Salish-Kootenai Tribal Health Department began providing primary health care, independent of the Billings Area Indian Health Service, on October 1, 1993.

G. Rural Health Clinics

There are twenty-three licensed Rural Health Clinics (RHCs) in Montana that are organized under PL 95-210 - The Rural Health Clinic Act. All of these are

providing primary health care services in health professional shortage areas. In some cases, the RHCs are located in counties in which there are no primary care physicians. Therefore, the physician assistants and/or nurse practitioners are affiliated with physicians in adjacent counties.

The listing of RHCs, by county, is given below.

Rural Health Clinics

County	Community	Number of RHCs
Carbon	Bridger	1
Carter	Ekalaka	1
Chouteau	Fort Benton Geraldine	1 1
Fallon	Baker	1
Glacier	Cut Bank	1
Jefferson	Boulder	1
Judith Basin	Stanford	1
Madison	Ennis Harrison	1 1
Meagher	White Sulphur Springs	1
Musselshell	Roundup	1
Phillips	Malta	1
Powder River	Broadus	1
Richland	Fairview	1
Roosevelt	Culbertson Poplar Wolf Point	1 1 2
Sanders	Hot Springs Thompson Falls	1 1
Wheatland	Harlowton	1
Yellowstone	Worden	1
TOTAL		**23**

H. Indian Health Service Hospitals

Montana has three Indian health Service (IHS) hospitals. These are located on the Crow Reservation, Fort Belknap Reservation, and Blackfeet Reservation. Primary health care is provided by physicians employed by the IHS. These hospitals are part of the Billings Area IHS. The locations of the IHS hospitals are shown in the following table.

Indian Health Service Hospitals

County	Community	Number of IHS Hospitals
Big Horn	Crow Agency	1
Blaine	Harlem	1
Glacier	Browning	1
TOTAL		**3**

I. Indian Health Service Clinics

Indian Health Service (IHS) clinics are located on reservations having no IHS hospitals and in communities that provide easier local access to primary health care. All of these clinics are staffed by primary care physicians employed by the IHS. Locations of the IHS clinics are given below.

Indian Health Service Clinics

County	Facility	Community
Blaine	Fort Belknap Service Unit Hays Health Station	Hays
Glacier	Blackfeet Service Unit Babb Health Station	Babb
Hill	Rocky Boy Service Unit Indian Health Center	Box Elder
Pondera	Blackfeet Service Unit Heart Butte Health Station	Heart Butte
Roosevelt	Fort Peck Service Unit Indian Health Center	Poplar
Roosevelt	Fort Peck Service Unit Wolf Point Health Center	Wolf Point
Rosebud	Northern Cheyenne Service Unit Indian Health Center	Lame Deer

J. National Health Service Corps Physician Providers

There are nine primary care physicians who are providing health care in Montana through the NHSC Loan Repayment Program. These physicians are located in the following counties and communities.

National Health Service Corps Physician Providers

County	Community	Number of Physicians
Big Horn	Hardin	1
Carbon	Red Lodge	1
Glacier	Cut Bank	1
Madison	Ennis	2
Roosevelt	Culbertson	1
Rosebud	Forsyth	1
Sanders	Thompson Falls	1
Wheatland	Harlowton	1
TOTAL		**9**

Chapter III. Prioritization of Counties by Unmet Need

A. Ranking Based on County Access to Primary Care Physicians

The priority ranking of all counties is based on the detailed resource analysis provided in Chapter VI.

The number of persons with unmet need in each county was determined using the physician to population ratio of 1:1,500. The number of individuals in excess of 1,500 is, by definition, the population with unmet need in the county. This ranking does not take into consideration many other factors that influence access to health care; including (1) health status of population, (2) time and distance to medical clinic and/or hospital, (3) capacity of physicians to care for Medicaid and other low-income populations, and (4) overall population density. The priority ranking of each county is provided in the following table.

NUMBER OF PERSONS WITH UNMET NEED		
Priority Rank	County	Number of Persons
01	Ravalli	9,447
02	Lincoln	5,682
03	Jefferson	5,248
04	Rosebud	4,592
05	Carbon	3,753
06	Valley	3,695
07	Phillips	3,590
08	Teton	3,190
09	Dawson	3,064
10	Hill	2,799
11	Musselshell	2,603
12	Chouteau	2,459
13	Glacier	2,366
14	Judith Basin	2,251
15	Powder River	2,050

NUMBER OF PERSONS WITH UNMET NEED		
Priority Rank	County	Number of Persons
16	Pondera	1,703
17	Sweet Grass	1,620
18	Richland	1,510
19	Sheridan	1,490
20	Carter	1,489
21	Garfield	1,428
22	Sanders	1,344
23	Prairie	1,297
24	Park	1,286
25	Wibaux	1,129
26	Deer Lodge	1,037
27	Granite	1,031
28	Golden Valley	897
29	Treasure	884
30	Powell	785
31	Stillwater	735
32	McCone	599
33	Petroleum	511
34	Meagher	313
35	Madison	70
36	Wheatland	14
37	Blaine	00
38	Yellowstone	00
39	Missoula	00
40	Silver Bow	00
41	Flathead	00
42	Toole	00

NUMBER OF PERSONS WITH UNMET NEED		
Priority Rank	**County**	**Number of Persons**
43	Fergus	00
44	Cascade	00
45	Beaverhead	00
46	Broadwater	00
47	Lake	00
48	Lewis & Clark	00
49	Mineral	00
50	Liberty	00
51	Gallatin	00
52	Daniels	00
53	Fallon	00
54	Custer	00
55	Roosevelt	00
56	Big Horn	00
Total of All Counties		**77,961**

The total population with unmet need using the methodology of physician to population ratio is **77,961**. This represents approximately 9.5 percent of the estimated 1992 Montana population. Eighteen (32 percent of the total number of counties) of the counties have populations exceeding the 1,500 number that was suggested for priority ranking by the Bureau of Primary Health Care.

The Montana Department of Health and Environmental Sciences and the Montana Primary Care Association **do not** believe that these priority rankings are an accurate measure for priority interventions. There are two counties (Ravalli County and Jefferson County) among the top eighteen that appear to be aberrations. That is, Ravalli County is not considered as one in need of significant assistance. The primary care systems are functional; with needs that are comparatively insignificant. The population groups in Jefferson County are located in Boulder and Whitehall. Although the total number of physicians with practices in Jefferson County is small, the populations are not considered to be underserved. Of those ranked at the bottom on the priority list, Roosevelt County and Big Horn County are counties with significant unmet need. The primary reasons are that these two counties have high poverty, high minority populations, and geographic areas that are considered "less attractive" to primary care physicians.

B. Ranking Based on Percentage of County Population Without Access to Primary Care Physicians Within County

This second ranking of counties takes into consideration the **magnitude of unmet need** based on the percentage of the total county population without access to primary care physicians within the county. Montana has 9 counties in which there are no physicians practicing within the county. Therefore, the unmet need in these counties is 100% of the population. Priority rankings based on percentages are given in the following table.

PERCENT OF POPULATION WITH UNMET NEED		
Priority Rank	**County**	**Percentage of Population**
01	Judith Basin	100%
02	Powder River	100%
03	Carter	100%
04	Garfield	100%
05	Prairie	100%
06	Wibaux	100%
07	Golden Valley	100%
08	Treasure	100%
09	Petroleum	100%
10	Phillips	70.5%
11	Jefferson	63.6%
12	Musselshell	63.4%
13	Sweet Grass	51.9%
14	Teton	51.5%
15	Carbon	45.5%
16	Valley	45.1%
17	Chouteau	45.0%
18	Glacier	44.1%
19	Rosebud	43.4%
20	Granite	40.7%

PERCENT OF POPULATION WITH UNMET NEED		
Priority Rank	**County**	**Percentage of Population**
21	Ravalli	34.4%
22	Dawson	33.8%
23	Sheridan	33.2%
24	Lincoln	32.1%
25	McCone	28.5%
26	Pondera	27.5%
27	Meagher	17.3%
28	Hill	15.7%
29	Sanders	15.2%
30	Richland	14.4%
31	Powell	11.6%
32	Stillwater	10.9%
33	Deer Lodge	10.3%
34	Park	8.7%
35	Madison	1.2%
36	Wheatland	0.6%
37	Yellowstone	0.0%
38	Missoula	0.0%
39	Silver Bow	0.0%
40	Flathead	0.0%
41	Toole	0.0%
42	Fergus	0.0%
43	Cascade	0.0%
44	Beaverhead	0.0%
45	Broadwater	0.0%
46	Lake	0.0%
47	Lewis & Clark	0.0%

PERCENT OF POPULATION WITH UNMET NEED		
Priority Rank	County	Percentage of Population
48	Mineral	0.0%
49	Blaine	0.0%
50	Liberty	0.0%
51	Gallatin	0.0%
52	Daniels	0.0%
53	Fallon	0.0%
54	Custer	0.0%
55	Roosevelt	0.0%
56	Big Horn	0.0%

The first nine priority listings in this table suggest that the greatest unmet need exists in nine frontier counties located in Eastern Montana. These nine counties have no physicians and no hospitals. There are, however, physician assistants and/or nurse practitioners providing primary care services in five of these counties through Rural Health Clinics. There are no health care facilities in the other four counties. As demonstrated in the previous table, many of the counties with the lowest priority ranking have significant unmet need including: Big Horn County, Roosevelt County, Daniels County, and Blaine County.

Chapter IV. Resource Recommendations by County

A summary of resource recommendations for each county is provided. These recommendations are consistent with the data analysis presented in Chapter VI and are limited to interventions appropriate to programs offered through the Bureau of Primary Health Care. The resource recommendations are not necessarily related to the county priority rankings in Chapter III.

The following resource recommendations are defined for purposes of understanding the context of specific recommendations and the resources suggested for implementation of the recommendations:

- **State Loan Repayment Program**

  Montana does have a State Loan Repayment Program. It is referred to as the Montana Rural Physician Incentive Program. No funding for the State Loan Repayment Program is provided by the federal government. The Montana Rural Physician Incentive Program is funded through special assessment fees charged to medical students entering school through the WAMI and WICHE Programs. This program is administered through the Office of the Commissioner of Higher Education of the Montana University System. A State Loan Repayment Advisory Committee makes recommendations for approval/disapproval of applications submitted for loan repayment through the State Loan Repayment Program.

- **Technical Assistance for Community Development**

  Montana has a program entitled "Community Health Services Development" (CHSD). This program provides technical assistance to counties, communities, and hospitals for the conduct of needs assessments, financial reviews of hospitals/clinics/nursing homes, county/community household surveys, scope of service reviews, long-range planning, board of trustee education, and health provider recruitment/retention.

  Technical assistance through the CHSD Program is not directly applicable to "community development" for the purpose of preparing an application for a federally-funded Community Health Center.

- **Technical Assistance for Site Development**

  Resource recommendations for Site Development in the Montana Primary Care Access Plan is limited to the provision of assistance to communities for understanding, developing applications, and structuring of PL 95-210 Rural Health Clinics.

- **Montana Medical Assistance Facility**

  Technical assistance for development of Medical Assistance Facilities (MAFs) is provided by the Montana Hospital Association. Funding for this technical assistance is provided by the Health Care Financing Administration (HCFA) through a demonstration grant to the Montana Hospital Foundation.

- **NHSC Fellowship of Primary Health Care Professionals**

  Technical assistance for the development of clinics as training sites for the NHSC Fellowship Program is dependent on continued funding of the program through the Primary Care Cooperative Agreement.

Beaverhead County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Big Horn County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Blaine County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide four days of technical assistance through the Montana Community Health Services Development Program	■ PCO
Site Development	■ Provide two days of technical assistance for development of a 95-210 Rural Health Clinic	■ PCA
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Broadwater County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Community Development	■ Provide two days of technical assistance to determine need and feasibility for expansion of Helena Community Health Center into Broadwater County.	■ PCA
Site Development	■ Provide two days of technical assistance for development of a 95-210 Rural Health Clinic	■ PCA
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Carbon County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide five days of technical assistance through the Montana Community Health Services Development Program ■ Provide two days of technical assistance to determine the need and feasibility for expansion of the Billings Community Health Center into Carbon County	■ PCO ■ PCA
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Carter County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO

Cascade County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide five days of technical assistance for continued development of the Community Health Center in Great Falls	■ PCA
Community Health Center New Site	■ Provide technical assistance	■ PCA ■ Region VIII Office
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Chouteau County
Resource Recommendations

Recommendation	Activity and Resources	Responsible Entity
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Site Development	■ Provide four days of technical assistance for development of a 95-210 Rural Health Clinic in Big Sandy	■ PCA
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance ■ Support annual applications	■ PCO
Develop Hospital as Medical Assistance Facility	■ Provide technical assistance to Big Sandy Hospital	■ Montana Hospital Association
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Custer County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Daniels County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Site Development	■ Provide four days of technical assistance for development of a 95-210 Rural Health Clinic in Scobey	■ PCA
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Dawson County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide four days of technical assistance through the Montana Community Health Services Development Program	■ PCO
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Deer Lodge County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Community Development	■ Provide technical assistance for potential expansion of the Butte Community Health Center to Deer Lodge County	■ PCA
Provide Access to State Loan Repayment Program (SLRP	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Fallon County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide one day of technical assistance through the Montana Community Health Services Development Program	■ PCO
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Fergus County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Flathead County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Gallatin County
Resource Recommendations

Recommendation	Activity and Resources	Responsible Entity
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Garfield County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Site Development	■ Provide two days of technical assistance for development of a 95-210 Rural Health Clinic	■ PCA

Glacier County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide three days of technical assistance through the Montana Community Health Services Development Program	■ PCO
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Golden Valley County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation

Granite County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Support New HPSA Designation	■ Conduct a review of area needs ■ Submit application for designation to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Site Development	■ Provide two days of technical assistance for development of a 95-210 Rural Health Clinic	■ PCA
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Hill County
Resource Recommendations

Recommendation	Activity and Resources	Responsible Entity
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide technical assistance for potential development of healthcare delivery system for Rocky Boy Indian Tribe	■ PCA
	■ Provide two days technical assistance for establishing FQHC status for Rocky Boy Tribal Health Department	■ PCA
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Jefferson County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide technical assistance to determine the need and feasibility of expanding the Helena Community Health Center to Jefferson County	■ PCA
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Judith Basin County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual application	■ PCO

Lake County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide ten days of technical assistance through the Montana Community Health Services Development Program ■ Provide four days of technical assistance for FQHC designation for the Tribal Health Department	■ PCO ■ PCA
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Lewis & Clark County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA and MUP Designations	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Liberty County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual application	■ PCO
Provide Access to State Loan Repayment Site (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Lincoln County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide technical assistance to Eureka through the Community Health Services Development Program ■ Provide technical assistance to Eureka for development of a Rural Health Clinic	■ PCO ■ PCA
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual application	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

McCone County
Resource Recommendations

Recommendation	Activity and Resources	Responsible Entity
Develop as New HPSA Site	■ Conduct a review of the area ■ Submit an application to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Site Development	■ Provide one day of technical assistance for development of 95-210 Rural Health Clinic	■ PCA
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Madison County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual applications	■ PCO

Meagher County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Develop Hospital as Medical Assistance Facility	■ Provide technical assistance to White Sulphur Springs Hospital	■ Montana Hospital Association
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Mineral County
Resource Recommendations

Recommendation	Activity and Resources	Responsible Entity
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Support New HPSA Designation	■ Conduct a review of area needs ■ Submit application for designation to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide technical assistance to determine the need and feasibility for expansion of the Missoula Community Health Center into Mineral County	■ PCA
Site Development	■ Provide one day of technical assistance for development of a 95-210 Rural Health Clinic	■ PCA
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Missoula County
Resource Recommendations

Recommendation	Activity and Resources	Responsible Entity
MUP Designation	■ Conduct annual review and submit a report to the Division of Shortage designation for maintenance of the MUP designation	■ PCO and PCA
Community Development	■ Provide technical assistance to determine the need and feasibility for expansion of the Missoula Community Health Center to serve Seeley Lake	■ PCA
Site Development	■ Provide two days of technical assistance for possible development of a homeless program (340 Grant) in Missoula County	■ PCA
New Site for Homeless Program (340 Grant)	■ Support application of Missoula Community Health Center	■ PCA
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Musselshell County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide two days of technical assistance through the Montana Community Health Services Development Program	■ PCO
Site Development	■ Provide two days of technical assistance for conversion of Hospital to Medical Assistance Facility	■ Montana Hospital Association
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Park County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Site Development	■ Provide three days of technical assistance for development of a 95-210 Rural Health Clinic	■ PCA
NHSC Scholar	■ Request a new NHSC Scholar to replace current NHSC Scholar assigned to Gardiner-Yellowstone National Park	■ PCO and PCA
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Petroleum County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation

Phillips County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee

Pondera County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide two days of technical assistance through the Montana Community Health Services Development Program	■ PCO
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Powder River County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO

Powell County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Prairie County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Site Development	■ Provide two days of technical assistance for development of a Rural Health Clinic in Terry	■ PCA
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO

Ravalli County
Resource Recommendations

Recommendation	Activity and Resources	Responsible Entity
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Support New HPSA Designation	■ Conduct a review of area needs ■ Submit application for designation to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide technical assistance to determine the need and feasibility of expansion of the Missoula Community Health Center to include Ravalli County	■ PCA
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Richland County
Resource Recommendations

Recommendation	Activity and Resources	Responsible Entity
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Provide Access to NHSC Loan Repayment Program	■ Provide technical assistance for annual application process ■ Support annual applications	■ PCO
Provide Access to State Loan Repayment Program (SLRP)	■ Provide information on SLRP ■ Montana University System	■ PCO ■ SLRP Advisory Committee
NHSC Fellowship of Primary Health Care Professionals	■ Utilize as training site for students ■ Annual funding through the NHSC	■ PCO

Roosevelt County Resource Recommendations		
Recommendation	**Activity and Resources**	**Responsible Entity**
Maintain MUA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Maintain HPSA Designation	■ Conduct an annual review of area needs ■ Provide area need data to the Division of Shortage Designation	■ PCO and PCA ■ Division of Shortage Designation
Community Development	■ Provide two days of technical assistance through the Montana Community Health Services Development Program	■ PCO
Maintain as NHSC Loan Repayment Site	■ Provide technical assistance to loan repayment providers ■ Support annual applications	■ PCO

Chapter V. Statewide Summary of Resource Recommendations

A summary of the total number of recommendations and/or interventions in each category (designations, technical assistance, federal programs, state programs, other programs, and high impact need indicators) for assisting communities and counties with maintaining and improving access to primary health services is provided in the following Table. Information included in the summary was derived from individual county data that appears in Chapter IV and Chapter VI.

STATEWIDE SUMMARY OF RESOURCE RECOMMENDATIONS

Area	Montana (All Counties)
Unmet Need	77,961

Designation(s) To Be Sought

Maintain MUA Designations	31 Counties
Maintain HPSA Designations	43 Counties
Support Application for New HPSA	5 Counties

Technical Assistance

Community Development	60 Total Days
Site Development	41 Total Days

Federal Program

CHC New Site	1 New CHC
CHC Expansion Site	7 New and Potential CHC Expansions
New Site of Homeless Program	1 New Homeless Program

Federal Provider

NHSC Scholar	1 Replacement Scholar
LRP	36 Sites to Maintain Designations and/or to Support New Applications

State Program

New Sites	5 Sites to Develop as Medical Assistance Facilities

State Provider

SLRP	38 Sites to Provide Access for the State Loan Repayment Program

Other Programs

36 Sites for Utilization as Training Locations for Students Participating in the NHSC Fellowship for Primary Health Care Professionals

High Impact Need Indicators

1.	46	Frontier Counties
2.	06	High Minority Population Counties*
3.	16	High Poverty Counties**
4.	09	Counties with No Physicians
5.	05	Counties with Only One Physician
6.	06	Counties with No Hospitals or Medical Assistance Facilities
7.	04	Counties with Community Health Centers
8.	01	County with a Migrant Health Center
9.	06	Counties with Satellite Migrant Health Centers

* Over 20% of the total population is minority.
** Having 50% or more of the population under 200% of Poverty.

Chapter VI. County-Based Resource Analysis

The Bureau of Primary Health Care has identified the resource analysis as the "core" of the Primary Care Access Plan. The intent of the resource analysis is to determine the number of individuals living within a rational service area with unmet need. Access to primary care physicians and total population were the key factor in determining the volume of unmet need.

The Montana Primary Care Access Plan utilizes the county as the **Unit of Analysis**. Therefore, the resource analysis was completed for each of the fifty-six counties in Montana.

The total population of 822,347 in 1992, as estimated by the Montana Department of Labor and Industry, was chosen as the most accurate source of data. The 1990 census reported that the population of Montana was 799,065. Steady increases in population have been recorded each year. The Office of the Governor utilized the following figures in estimating yearly increases for purposes of making budget recommendations for the 1995 legislative session: 1992 (822,347), 1993 (838,000), 1994 (847,000), 1995 (850,000).

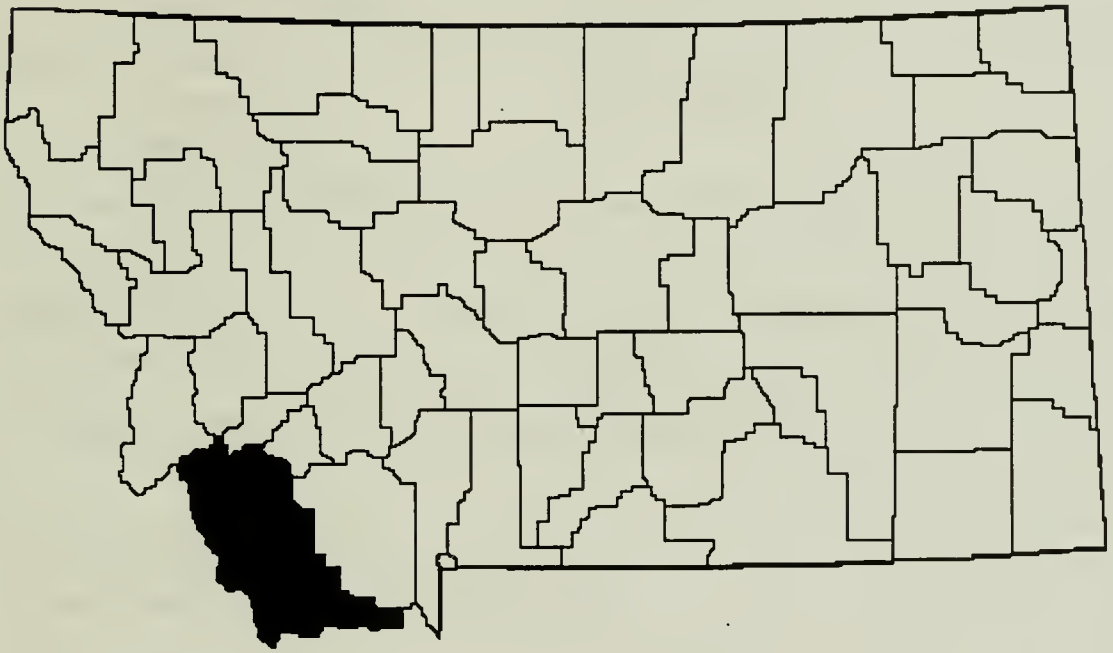
For most counties, the resource analysis utilizes the entire population in calculating the volume of unmet need. The option of using the population under 200% of poverty was chosen in selected counties with high poverty populations.

The source of data for estimating the number of primary care physicians (family practice, internal medicine, pediatrics, obstetrics/gynecology) in each county was the 1994 Montana Medical Association Directory of Physicians. A review of the number of primary care physicians receiving payments for the care of Medicaid patients in 1993 determined that over 90 percent of the physicians participated in the state Medicaid Program. Therefore, the 1994 resource analysis was based on the assumption that the entire Medicaid eligible population has access to one or more primary care physicians.

Resource recommendations for each county are limited to those specifically targeted by the Bureau of Primary Health Care. That is, (1) designations as federal shortage areas, (2) providing technical assistance for community development and site development, (3) initiation of new federal programs such as CHCs and MHCs, (4) providing communities with physicians assisted through federal and state loan repayment programs, and (5) initiation or expansion of other federally-assisted programs.

The final section of the resource recommendations suggests some characteristics of the county that impact the delivery of primary health care.

Beaverhead County



Primary Health Care

Resource Analysis and Recommendations

STATE PRIMARY CARE ACCESS PLAN
RESOURCE ANALYSIS

A. Unit of Analysis

1. County Name: County FIPs Code:	 Beaverhead 001

C. Primary Care Physician FTEs

1. Private Primary Care Physician FTEs in area:	01
2. Private Primary Care Physician Medicaid FTEs in Area (only if target population is limited to under 200% poverty)	Not Applicable
3. C/MHCs and primary care physician FTEs in each: a. Name: Address: FTEs	Not Applicable

4. Other BPHC programs and primary care physician FTEs in each: a. Name: Address: Type of Grant: FTEs:	Not Applicable
5. MCH clinics and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
6. LHDs and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
7. OPDs providing primary care and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
8. Other subsidized programs and primary care physician FTEs in each: a. Name: Address: Type of program & support: FTEs:	Not Applicable

D. Total Physician FTEs Available to Population

1. If target population is B.1, include C.1 and C.3-8:	01
2. If target population is B.2, include C.2-8:	Not Applicable

E. Unmet Need

1. B.1 minus (D.1 x 1500):	313
2. B.2 minus (D.2 x 1500):	Not Applicable

F. Designation Status

1. MUA	Census tracts:	Entire Meagher County
2. MUP	Census tracts: Type of population:	Not Applicable
3. Geographic HPSA	Census tracts:	Entire Meagher County
4. Population HPSA	Census tracts: Type of population:	Not Applicable

G. Unmet Need by County

1. If unit of analysis is A1, allocate E to entire county.	313
2. If unit of analysis is A2, allocate E to each County FIPs Code:	Not Applicable
3. If unit of analysis is A.3, sum E for all areas with same County FIPs Code:	Not Applicable
4. If unit of analysis is A.4, allocate to each County FIPs Code:	Not Applicable

STATE PRIMARY CARE ACCESS PLANS
RECOMMENDATIONS

A. Area (Resource Analysis)	Meagher County
B. Unmet Need (Resource Analysis E)	313
C. Ranking 34 of 56	Based on BPHC Formula for Access to Primary Care Physicians
Ranking 27 of 56	Based on Percentage of County Population without Access to Primary Care Physicians within County

D. Designation(s) To Be Sought

1. MUA Census tracts:	Continue Designation
2. MUP Census tracts: Census tracts: Type:	No
3. Geographic HPSA Census tracts:	Continue Designation
4. Population HPSA Census tracts: Type:	No

E. Technical Assistance

- ♦ NHSC Fellowship of Primary Care Health Professionals
  - Expand number of physicians serving as preceptors for medical students, physician assistant students, nurse practitioner students, and physicians in residency training.

K. High Impact Need Indicators

- ♦ Low Population Density (Frontier County)
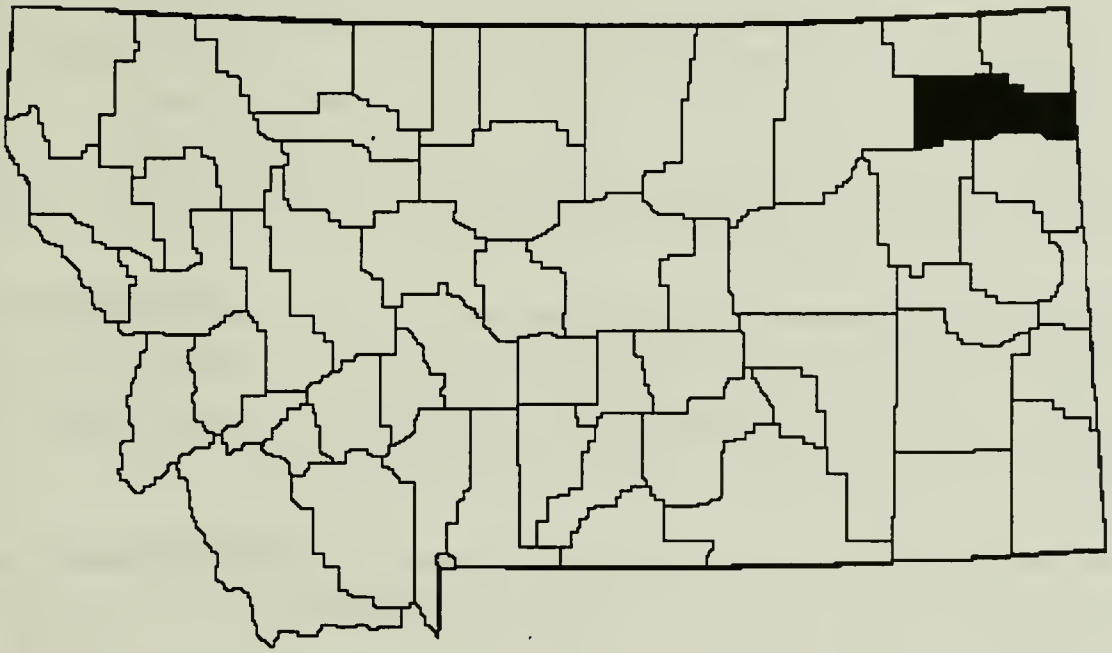
- ♦ Low Number of Primary Care Physicians
- ♦ Regional Referral Center
- ♦ 4,000 Migrant and Seasonal Farmworkers

Roosevelt County



Primary Health Care

Resource Analysis and Recommendations

STATE PRIMARY CARE ACCESS PLAN
RESOURCE ANALYSIS

A. Unit of Analysis

1. County Name: County FIPs Code:	 Roosevelt 085
2. Multiple Counties Names: County FIPs Codes:	Not Applicable
3. Subcounty Area Census Tracts: County FIPs Code:	Not Applicable
4. Multicounty Area Names of Counties: Census Tracts: County FIPs Codes:	Not Applicable

B. Target Population

1. Total Population:	10,864
2. Population under 200% of poverty:	Not Applicable

C. Primary Care Physician FTEs

1. Private Primary Care Physician FTEs in area:	12
2. Private Primary Care Physician Medicaid FTEs in Area (only if target population is limited to under 200% poverty)	Not Applicable
3. C/MHCs and primary care physician FTEs in each: a. Name: Address: FTEs	Not Applicable

4. Other BPHC programs and primary care physician FTEs in each: a. Name: Address: Type of Grant: FTEs:	 Randall Steffens, D.O. Roosevelt Memorial Hospital National Health Service Corps Loan Repayment Provider 1.0 (included in C.1.)
5. MCH clinics and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
6. LHDs and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
7. OPDs providing primary care and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
8. Other subsidized programs and primary care physician FTEs in each: a. Name: Address: Type of program & support: FTEs:	Not Applicable

D. Total Physician FTEs Available to Population

1. If target population is B.1, include C.1 and C.3-8:	12
2. If target population is B.2, include C.2-8:	Not Applicable

E. Unmet Need

1. B.1 minus (D.1 x 1500):	00
2. B.2 minus (D.2 x 1500):	Not Applicable

F. Designation Status

1. MUA	Census tracts:	Entire Roosevelt County
2. MUP	Census tracts: Type of population:	Not Applicable
3. Geographic HPSA	Census tracts:	Service Area: Culbertson Poplar/Wolf Point Parts: East Roosevelt CCD Fort Peck Reservation CCD
4. Population HPSA	Census tracts: Type of population:	Not Applicable

G. Unmet Need by County

1. If unit of analysis is A1, allocate E to entire county.	00
2. If unit of analysis is A2, allocate E to each County FIPs Code:	Not Applicable
3. If unit of analysis is A.3, sum E for all areas with same County FIPs Code:	Not Applicable
4. If unit of analysis is A.4, allocate to each County FIPs Code:	Not Applicable

STATE PRIMARY CARE ACCESS PLANS
RECOMMENDATIONS

A. Area (Resource Analysis)	Roosevelt County
B. Unmet Need (Resource Analysis E)	00
C. Ranking 55 of 56	Based on BPHC Formula for Access to Primary Care Physicians
Ranking 55 of 56	Based on Percentage of County Population without Access to Primary Care Physicians within County

D. Designation(s) To Be Sought

1. MUA Census tracts:	Continue Designation
2. MUP Census tracts: Census tracts: Type:	No
3. Geographic HPSA Census tracts:	Continue Designation
4. Population HPSA Census tracts: Type:	No

E. Technical Assistance

1. Community Development Days:	2 days (Provide technical assistance to Culbertson through the Montana Community Health Services Development Program. No federal assistance requested.)
2. Site Development Days:	No
3. Estimated year of readiness:	Not Applicable to BPHC Programs.

F. Federal Program

1. Total Population:	3,120
2. Population under 200% of poverty:	Not Applicable

C. Primary Care Physician FTEs

1. Private Primary Care Physician FTEs in area:	01
2. Private Primary Care Physician Medicaid FTEs in Area (only if target population is limited to under 200% poverty)	Not Applicable
3. C/MHCs and primary care physician FTEs in each: a. Name: Address: FTEs	Not Applicable

4. Other BPHC programs and primary care physician FTEs in each: a. Name: Address: Type of Grant: FTEs:	Not Applicable
5. MCH clinics and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
6. LHDs and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
7. OPDs providing primary care and primary care physician FTEs in each: a. Name: Address: FTEs:	Not Applicable
8. Other subsidized programs and primary care physician FTEs in each: a. Name: Address: Type of program & support: FTEs:	Not Applicable

D. Total Physician FTEs Available to Population

1. If target population is B.1, include C.1 and C.3-8:	01
2. If target population is B.2, include C.2-8:	Not Applicable

E. Unmet Need

1. B.1 minus (D.1 x 1500):	1,620
2. B.2 minus (D.2 x 1500):	Not Applicable

F. Designation Status

1. MUA	Census tracts:	[Geographic MUA]
2. MUP	Census tracts: Type of population:	Not Applicable
3. Geographic HPSA	Census tracts:	Entire Sweet Grass County
4. Population HPSA	Census tracts: Type of population:	Not Applicable

G. Unmet Need by County

1. If unit of analysis is A1, allocate E to entire county.	1,620
2. If unit of analysis is A2, allocate E to each County FIPs Code:	Not Applicable
3. If unit of analysis is A.3, sum E for all areas with same County FIPs Code:	Not Applicable
4. If unit of analysis is A.4, allocate to each County FIPs Code:	Not Applicable

STATE PRIMARY CARE ACCESS PLANS
RECOMMENDATIONS

A. Area (Resource Analysis)	Sweet Grass County
B. Unmet Need (Resource Analysis E)	1,620
C. Ranking 17 of 56	Based on BPHC Formula for Access to Primary Care Physicians
Ranking 13 of 56	Based on Percentage of County Population without Access to Primary Care Physicians within County

D. Designation(s) To Be Sought

1. MUA Census tracts:	Continue Designation
2. MUP Census tracts: Census tracts: Type:	No
3. Geographic HPSA Census tracts:	Continue Designation
4. Population HPSA Census tracts: Type:	No

E. Technical Assistance

1. Community Development Days:	6 days (Provide technical assistance to Big Timber through the Montana Community Health Services Development Program. No federal assistance requested.)
2. Site Development Days:	2 days (Provide technical assistance to Big Timber for development of a 95-210 Rural Health Clinic. No federal assistance requested.)
3. Estimated year of readiness:	1995

F. Federal Program

1. C/MHC New Site Sponsor: Location: People Served:	No
2. C/MHC Expansion Sponsor: People Served:	Not Applicable
3. New Site of Other BPHC Program Sponsor: Type: Location People Served:	No
4. Expansion of other BPHC Programs Sponsor: Type People Served:	Not Applicable

G. Federal Provider

1. Scholar Profession/Specialty: Location: Sponsor:	No
2. LRP Profession/Specialty: Location: Sponsor:	 Physician/Primary Care Big Timber Medical Assistance Facility - Access to National Health Service Corps Loan Repayment Programs

H. State Program

1. New Site Sponsor: Type: Location: People Served:	 Montana Hospital Association Medical Assistance Facility Big Timber Entire County

2. Expansion	Sponsor: Type: Location: People Served:	Not Applicable

I. State Provider

1. SLRP	Profession/Specialty: Location: Sponsor:	Physician/Primary Care Big Timber SLRP will be available to qualified physicians. SLRP is not supported by any federal program funding.
2. CLRP	Profession/Specialty: Location: Sponsor:	No
3. Other	Profession/Specialty: Location: Sponsor:	No

J. Other Programs

1. New Site

   - NHSC Fellowship of Primary Health Care Professionals

     Develop new Rural Health Clinic as a training site for medical students, physician assistant students, nurse practitioner students, and physicians in residency training.

2. Expansion No

K. High Impact Need Indicators

- Low Population Density (Frontier County)
- One Physician in County
- Development of New Medical Assistance Facility
- Low Market Share for Physician

J. Other Programs

1. New Site No

2. Expansion

- ♦ NHSC Fellowship of Primary Care Health Professionals
  - • Expand number of physicians serving as preceptors for medical students, physician assistant students, nurse practitioner students, and physicians in residency training.

K. High Impact Need Indicators

- ♦ Regional Referral Center
- ♦ Community Health Center is Providing Healthcare to Indigent, Underserved and Low Income Populations
- ♦ Migrant Health Center is Providing Healthcare to Migrant Populations and to Seasonal Farm Workers
- ♦ Homeless Programs

Chapter VII. Statewide Data Summary

The Bureau of Primary Health Care provided county data for use in preparation of Primary Care Access Plans. The following Statewide Data Summary updates the baseline data in only three categories: (1) total population, (2) total primary care physicians, and (3) physician to population ratio.

The total population for each county was updated using the 1992 population estimates published by the Montana Department of Labor and Industry. This is the most recent and reliable data available through the state agency that is responsible for tracking this type of information. In most counties, the population figures used in calculating unmet need are less than the actual 1994 population. Therefore, the calculations on total unmet need provided for each county are conservative.

The number of primary care physicians in each county is updated using data supplied by the Montana Medical Association (MMA). In June of each year, the MMA publishes a directory that contains the names, addresses, telephone numbers, medical specialty, and practice status (active or retired) of all physicians in Montana. This is the most reliable information available on the location of physicians in communities throughout the state. For a few counties, the Montana Primary Care Office and the Montana Primary Care Association have more recent and reliable data on the number of primary care physicians in communities than that given in the 1994 MMA Directory of Physicians. In these cases, the new data has been substituted and used in calculating unmet need.

The physician to population ratios for all counties have been calculated based on the 1992 population estimates and the physician data available in the 1994 MMA Directory of Physicians. The number of physicians and the physician to population ratios for Big Horn County, Blaine County, and Glacier County include physicians who are employed by the Billings Area Indian Health Service. The IHS physicians are providing health care to Indian populations within these counties and, in most cases, through the three IHS hospitals.

The remainder of the data in the accompanying table is that provided by the Bureau of Primary Health Care: (1) county population under 200% of poverty, (2) county infant mortality, (3) county low birth weight, (4) county MUA designation, and (5) county HPSA designation.

Statewide Data Summary

County FIPS Code	County	Total* Population 1992	Total Under 200% Poverty	Percent Under 200% Poverty	Infant Mortality	Low Birthweight
001	Beaverhead	8,603	3,668	43.5%	10.9	5.6
003	Big Horn	11,661	6,942	61.2%	12.6	5.0
005	Blaine	6,777	3,813	56.7%	6.8	4.1
007	Broadwater	3,520	1,566	47.2%	14.8	3.7
009	Carbon	8,253	3,720	46.0%	13.4	7.3
011	Carter	1,489	862	57.4%	0.0	4.3
013	Cascade	79,268	28,387	36.5%	10.4	6.2
015	Chouteau	5,459	2,246	41.2%	7.6	5.8
